Note: The margin of error for percent employed in manufacturing and percent female-headed household is calculate using "Instructions for Applying Statistical Testing to ACS Data" ([http://www.census.gov/acs/www/Products/users\\_guide/ACS\\_2005\\_Statistical\\_Testing.doc](http://www.census.gov/acs/www/Products/users_guide/ACS_2005_Statistical_Testing.doc))

and not obtained directly from the ACS sample so it may differ from the margin of error on the Census Bureau web site.

Ranking of select variables for Counties in Ohio with 65,000 or more population with those that are statistically the same, higher, or lower than Cleveland, OH noted the ranking is from highest to lowest
